QUARTERLY COMPLIANCE AND ENFORCEMENT SUMMARY

October 1, 2008 to December 31, 2008

The 4th Quarterly Compliance and Enforcement Summary for 2008 outlines 3 Orders, 76 Administrative Sanctions, 647 Tickets and 10 Court Convictions for a combined total of over $311,000 in fines.

Notable highlights for the Quarter:

After the release of a large plume of sulphur dioxide (SO2) gas sent several people to the hospital in 2006, an investigation by the Commercial Environmental Investigations Unit resulted in a guilty plea from Marsulex Inc. to two charges under section 120 (7) of the *Environmental Management Act*. Marsulex Inc. was penalized $150,000 and was ordered to pay $148,000 of that penalty to the Habitat Conservation Trust Foundation. The maximum fine under section 120 (7) of the Environmental Management Act is $300,000 or imprisonment for not more than six months, or both. See page 30 for details.

Owners of a ranch in Big Creek, BC were convicted on five counts under the *Wildlife Act* and fined a combined total of $13,310 for charges related to the illegal killing of wildlife on their property. In an unprecedented ruling, the court also ordered Robert, Buck and Shane Russell to undertake an Environmental Farm Planning process including a haystack yard fencing project, the decommissioning of a landfill site and the establishment of ministry approved mortality pits – these farm husbandry measures are designed to mitigate future encounters with wildlife on the property. Of the $13,310 in fines, $9,800 was awarded to the Grizzly Bear Trust Fund and a further $2,300 was awarded to the Habitat Conservation Trust Foundation to address wildlife and habitat priorities in the area.

Also noted in this Quarter are orders issued to the owners of Worthington Mackenzie Pulpmill and a Langley mushroom farm to address non-compliance issues. Ministry staff use of a variety of compliance tools, giving consideration to using the most appropriate tool necessary to obtain compliance, and when required, to promote general deterrence. Orders are issued under the authority of the various ministry statutes when action is required to prevent or stop actual or potential impact to the environment, human health or safety.

ISSUED TO	LOCATION	ACT	REG.	SECTION	DESCRIPTION
0382498 B.C. Ltd. & 0834921 B.C. Ltd. D.b.a. Worthington Mackenzie Pulpmill	Mackenzie	*Environmental Management Act*		77	An Information Order was issued requiring the facility to ensure proper shutdown and/or winterization measures be taken to minimize the potential for pollution on the site. The order set out the following requirements: 1) prepare plans describing the orderly extended shutdown and winterization plans to maintain the works; 2) procedures, monitoring and operating practices of the effluent treatment system; 3) landfill management plans, including clean up, covering and monitoring; 4) plans for removal and proper storage prior to removal of solvents, waste oil, anti-freeze, batteries and other hazardous materials; 5) plans for removal and/or storage of raw materials, process waste from decommissioning of boilers, tanks and vessels; 6) plans describing how the chemical bulk storage facilities are to be secured and monitored during plant shutdown and disposal [including existing chlorine dioxide inventory]; 7) plans for appropriate site security measures to protect its integrity and to prevent vandalism; and 8) a description of human resource needs for implementing safe and effective plans and procedures for shutdown and/or winterization.
A-1 Mushroom Substratum Ltd., Farmers' Fresh Mushrooms Inc., and H. V. Troung Ltd.	Langley	*Environmental Management Act*		81	A Pollution Prevention Order was issued after a site inspection revealed that agricultural and compost waste was entering the environment. The company was ordered to: 1) immediately eliminate the production causing leachate at this site; 2) prevent all leachate and other waste water from entering secondary containment of the "brown water" holding tank; 3) prevent all agricultural and composting waste including leachate and contaminated storm water from entering the environment directly; 4) remove all accumulated liquid and solid wastes and dispose of it in an acceptable manner; 5) retain a qualified environmental professional to prepare a remediation action plan for the site, including: a) detailed description of how the above requirements (1 - 4) have been met, b) impact assessment on the soil, groundwater and surface water, c) assessment of the adequacy of the waste treatment system, and d) detailed summary of all the disposal activities at the property; and 6) prior to continuing with and/or commencing any operation of the mushroom composting and growing activities, the ministry must be satisfied and acknowledge in writing that the facilitiy is in compliance with all the requirements of the *Mushroom Composting Pollution Prevention Regulation* and the *Agricultural Waste Control Regulation*.
Grand Eagle Investment Ltd. and 448708 B.C. Ltd.	Victoria	*Water Act*		88(1)(d)	An Engineer's Order was issued to address non-compliance with a ground water well, which may pose a safety hazard to the public and potential risk of contamination to the aquifer. The owners were ordered to: 1) close the well in accordance with the standards for well closure, described in the *Ground Water Protection Regulation*; and 2) notify the ministry of the closure, including photographs of works completed.
